### Q. No. 1: Translate the following paragraph into Urdu:

- Water is another critical item for all crops. Massive amount of water is required during the growing season for cultivation. In fact, agricultural production consumes more fresh water than any other human activity. In many countries, people are facing shortage of fresh water. Competition for water resources among individuals, regions, and countries and associated human activities is already occurring with the current world population. Water resources, critical for irrigation, are under great stress as populous cities, states and countries require and withdraw more water from rivers, lakes, and aquifers every year.
- Hazrat Muhammad's (SAW) life is a perfect model and example for the people who want to attain goodness, piety and success in their individual as well as social life. People can seek light from the message and guidance from his life to achieve perfection in the moral, spiritual and social areas of life. He has set very high and noble ideals through his practical example for all mankind to follow in every field of life.
- I am glad that I have got a taste of what the real world has to offer. I have learned many lessons from my Public High School, boarding school, and work experiences. I am now ready to learn many more lessons through my college experiences. Although it has been tough, I have succeeded so far. I am prepared to excel and make it much further in the years to come with my college education. This developing positive outlook has given me the motivation that I need to become successful. I never give up.
- Allah's messenger (S.A.W.W) proved by his own example that no one could be more firm for justice than him, even if it was against his own interest or the interest of those who were near and dear to him. He decided every case brought to him, by friend or foe with justice, without fear of favour. A person of such magnitude transcends the barriers of time and space. People of all ages can find something in his life to provide them with guidance in their various fields of activity.
- Hazrat Muhammad (SAW) practically proved that no one could be more just and equitable than the messenger of Allah Almighty. As a young trader, he earned the good reputation of being an honest, fair and just business man. He always had fair and just dealings with all people. When the Ka'bah' was being constructed, there arose a dispute among the people regarding the black stone. This pleased everyone and saved them from a tribal conflict.
- The novel "Great Expectations" was written by Charles Dickens, a famous English author. The story took place in England in the nineteenth century. The main character is called Pip. We read about his life from childhood to manhood. The story begins when Pip was a lonely orphan. He was brought up by his sister. She was very strict and hard with him. His best friend was Joe, his sister's, husband. He was very kind and warm-hearted. He loved Pip as if

he were his own son.

7. Chartered Accountancy (CA). Undoubtedly one of the toughest and most highly paid professions. May be started directly after the completion of the intermediate or equivalent education. However, according to experts, twelfth grade with business subjects like accountancy, business statistics, commercial geography etc. are the best route to a CA degree as it helps build concepts. The Business Students and IT (Information Technology) fields also confuse young mind with a wide range sub-discipline.
8. While Hazrat Muhammad (SAW) was on his death bed, he proclaimed, "If I owed something to anyone; or if I wronged any person, or damaged anyone's property or honour, my person, my honour and my property are here; he may take revenge on me in this world." There was complete silence. Only one person demanded a few dirhams which were paid to him.
9. "When two men come to you for judgement, never decide in favour of one without hearing the arguments of the other; it is then most likely that you will know the truth." Hazrat muawia (RA) reported Allah's messenger (SAW) a saying, "Any ruler (or judge) who closes his door on the poor, the needy and destitute."
10. Allah's messenger (SAW) proved by his own example that no one could be more firm for justice than him, even if it was against his own interest or the interest of those who were near and dear to him. He decided every case brought to him, by friend or foe with justice, without fear of favour. A person of such magnitude transcends the barriers of time and space. People of all ages can find something in his life to provide them with guidance in their various fields of activity.
11. Prior to the first day of the New Year it is customary for families to thoroughly clean their houses. Doing this is said to clear out any bad luck from the previous year and to make the houses ready to accept good luck for the coming year. All cleaning must be finished before New Year's Day so there is no chance of accidentally throwing out the good fortune of the New Year. Wearing black is not allowed due to its association with death, however, wearing red is encouraged as the colour is associated with warding off bad spirits.
12. The alarming and incessant growth of population is causing serious economic problems in almost all continents. Great pressure is being placed on arable land, water, energy and biological resources. As the world population grows, the food problem will become increasingly severe. The most vulnerable will be population in developing countries. The per capita availability of food grains has been declining for the past 25 years. Certainly with a quarter million people being added to the world population each day, the need then for grains and all other food will reach unprecedented levels.
13. Another popular custom is to hang up signs and posters on doors and windows with the Chinese word fu written on them, which means luck and happiness. Buying flowers for the home is also commonplace since they symbolize the coming of spring and a new beginning.
14. It is a traditional practice for adults to give children little red envelopes filled with money in order to symbolize wealth and prosperity for the coming year. It is also common for elders to present red packets to unmarried members of the family. Envelopes are not to be opened until the recipient has left the home of the giver.
15. Handling minor accidents at home or on the road develops a sense of crisis management. This may prepare people to tackle with unexpected emergencies with great confidence. Minor cuts and scrapes usually do not need to go to the emergency room. Yet proper care is essential to avoid infection or other complications. Following guidelines can help you to handle crisis and take care of all.
16. Minor cuts and scrapes usually stop bleeding on their own. If they don't, apply gentle pressure with a clean cloth or bandage hold the pressure continuously for 20 to 30 seconds

- and if possible elevate the wound. Don't keep checking to see if the bleeding has stopped because this may damage or dislodge the clot that is forming and cause bleeding to resume. If blood spurts or continues flowing after continuous pressure, seek medical assistance.
17. Change the dressing at least daily or whenever it becomes wet or dirty. If you are allergic to the adhesive used in most bandages, switch to adhesive-free dressings or sterile gauze held in place with paper tape, gauze roll or a loosely applied elastic bandage. These supplies generally are available at pharmacies.
  18. Newspapers do not require us to sit at a place and read the news. Busy people may read the papers anytime of the day. They may read the news that is important to them early in the morning, and carry the paper with them to read in the bus or van. They may also choose to omit certain aspects of the news that they are not interested in.
  19. Each medium has strengths that the other does not. Each makes use of strong points that the other lacks. Television news is like having a fast food meal whereas reading newspapers is like having a ten course dinner. The ideal seems to be, if one has the time, to both read the news and watch it on television.
  20. Newspaper can give us the more in-depth coverage. Editorials and column writers can give us their expert views and analysis that we can digest slowly as we read them. Many people also opt to read more than one newspaper a day so as to get different viewpoints of the story and to check for its validity.
  21. Today, life has become more dynamic and innovative. Gone are the days when the medical and engineering fields were the only available choices. Now a whole world of non-traditional careers, from IT, electronic media and web networking to online business portals and fashion designing, are available for young people.
  22. The scope of any field in terms of market demand should also be considered very seriously. We cannot practically deny the significance of hiring trends; for example, a decade ago when computer science professionals were in demand, masses of MCS (Master of Computer Science) students flooded the market with extremely disappointing results.
  23. Books are a source of comfort for us. They are a safe shelter. Throughout human history man has found peace in the written works. Books are bridges - through their pages we make our contact with society. Those who read more are better prepared to face the world than those who don't read.
  24. It is important we work to give every person the opportunity to enjoy books as shelters, sustenance, and roads forward. To imagine a world without books is to imagine a world without thought, feeling, compassion, history, or voice.
  25. Competition for water resources among individuals, regions, and countries and associated human activities is already occurring with the current world population. Water resources, critical for irrigation, are under great stress as populous cities, states, and countries require and withdraw more water from rivers, lakes, and aquifers every year. A major threat to maintaining future water supplies is the continuing over-use of surface and ground water resources.
  26. Certainly improved technology will assist in more effective management and use of resources, but it cannot produce an unlimited flow of those vital natural resources that are the raw materials for sustained agricultural production. For instance, fertilizers enhance the fertility of eroded soils, but humans cannot make topsoil. Indeed, fertilizers made from finite fossil fuels are presently being used to compensate for eroded topsoil. A productive and sustainable agricultural system depends on maintaining the integrity of biodiversity.
  27. Once Hazrat Umar (RA), sitting in the Mosque of the Holy Prophet (SAW), was busy in the

- affairs of the state. Two young men, holding a strong and study countryman, appeared before him. They complained to Hazrat Umar (RA) that the person had murdered their old father. They demanded justice by punishing the murder for his crime.
28. Fossil energy is another prime resource used for food production. Nearly 80 percent of the world's fossil energy is being used by the developed countries. The intensive farming technologies of the developed countries use massive amounts of fossil energy for fertilizers, pesticides, irrigation, and for machines as a substitute for human labour. In developing countries, fossil energy has been used primarily for fertilizers and yields rather than to reduce human labour input. Because fossil energy is a finite resource, its depletion accelerates as population needs for food escalate thus, cost of fuel increases everywhere.
29. The third day dawned. The accusers and the surety were present at the Mosque of the Holy Prophet (SAW). They were waiting for the criminal. As time passed, Sahabah (RA) felt anxious for the fate of Hazrat Abuzar Ghaffari (RA). When only an hour remained, both the accusers come forward and demanded from Hazrat Abuzar Ghaffari (RA) their man.
30. When the whole court was in a worried state of mind, the villager reached there perspiring from head to foot. As he entered, he saluted the Caliph and said, 'Allah be praised for His mercy I was able to make my uncle trustee of the gold. As you see I am right in time, do not delay the execution.
31. Hazrat Abuzar Ghaffari (RA): Commander of the Faithful, the man was totally a stranger to me. I had never know or seen him before. But when out of all the bystanders, he selected me as his surety I could not but agree. If he had not returned, I would have gladly laid down my life for him.
32. On hearing these words, the audience present in the court gave cries of joy and applause and the face of the Caliph beamed with pleasure as he said, "Young men, the blood money will be paid to you from the peoples' Treasury, and Allah will reward for this goodness on the Day of Judgment."
33. There was a time when any student's future plans revolved around becoming a doctor, a pilot or an engineer. These few disciplines were thought to be the only fields that could offer rewarding careers in terms of both respect and money. Resultantly, students were unaware of other opportunities that could, perhaps, have been more advantageous.
