

12. Letter to your father about your health and studies.

Examination Hall,
(City) A.B.C.
October 13, 2023.

Dear Father,

I am quite well and hope the same for you. I understand that you are concerned for my health and studies. I must agree that living in a hostel is not an easy job because now I am solely responsible for myself. In the last few days I had diarrhea because I was dining out most of the time. But now the warden has restricted us and we all have to eat lunch and dinner from the mess. Thankfully they have improved the standard of cooking, but I still miss Mama's dishes.

Father, I know that I have not been able to perform well in the last monthly tests because of my diarrhea and bad eating habits. Don't worry, I feel that I am improving in health. I am focussing on my studies now and I hope to show better performance this time. I have recently appeared in Maths test and I hope that I will score full marks in it. I will share the results with you as soon as I receive them. I have also started daily English reading that is helping me in improving my vocabulary.

I have already started preparing for Pre-boards and I hope that I will not disappoint you and Mama.

Please convey my best compliments to her and love to Pinki and Ali

Yours affectionately,
X.Y.Z.
